

OVERVIEW

- Established in 2017.
- The general purpose of Chisel Technolab is to develop and promote advanced information technologies for multi-user operation.

Business philosophy to assure the highest quality product, total client satisfaction, timely delivery of solutions and the best quality & price ratio found in the industry.

- Customized digital solutions fit to business model by developing new software products or automate outdated processes.
- Our unique value is the ability to use innovative thinking to deliver ultimate solutions.

Solutions for business to leverage their resources & technology to fulfil their vision in B2B & B2C sectors.

VISION & MISSION

Create an environment :

- No Infrastructure - Free of physical devices regime
- Single platform - for multiple complex software systems.
- Pocket friendly - Reduce operating cost by half.

NEFRITI

WHAT IS NEFRITI ???

"NEural FRamework Internet Technology Integration"

Unique concept merging decentralization network filer methodology.

Technology to migrate from CENTRALIZED to DE-CENTRALIZED environment removing SPOF (Single Point Of Failure) for possible data thefts.

De-Centralized data storage allowing low cost data protection armoured with Blockchain enable topmost secured platform.

Converts Dead investment to active or passive income source.

WHY NEFRITI ???

- Low cost maintenance.
- Highly secured - Avoid manipulation or hack systems/data.
- Speeding processes/procedures by de-centralizing storage.
- Elimination of physical or cloud storage across currently used locations.

PRESENT

TOP PRESENT DAY PROBLEMS?

- **APPLICATION BUSINESS MANAGEMENT**
— App-DB Concept/ Large Scale Implementation/ Licenses
- **STORAGE MANAGEMENT**
— Storage Area & Associated Cost
- **RISK AND SECURITY MANAGEMENT**
— Availability/DR Solution/Load Balancer/Anti-Hacking Solutions
- **RESOURCE MANAGEMENT**
— Retention/SLA Management/Cost Management

FUTURE

- **ARCHITECTURE**
— Free from traditional architecture of apps > database > network.
- **DE-CENTRALIZATION**
— Back end solution on de-centralized database over multiple network.
- **HIGH AVAILABILITY & EFFECTIVE**
— Low cost, low resource requirement provides cheaper services for business.
- **HIGHLY SECURED**
— Provides top most secured platforms for all the storage & transactions.
